## **Expertise**

Corporate Services, Company formation, Shelf companies, Family office

Maria Pia Buchi co-heads our Latin American practice, working closely with our fiduciary and legal teams to provide market-leading services to LatAm clients across the areas of investment funds, private wealth, corporate, M&A, and banking & finance. Her expertise spans from all types of finance and corporate transactions to private wealth.

Before moving to the US to assume overall responsibility for the business development function of Harneys Fiduciary across the Americas, Pia started and developed our Brazil practice based out of São Paulo. From the Miami Fiduciary (Representative) Office, Pia is furthering the same success story in a tailored country-by-country basis by working with our offices across the region and market participants to explore solutions for international clients.

Pia comes from a legal background; whilst she is a Brazilian trained lawyer, her efforts and focus are now on the business development side of our Fiduciary offering. She is also a member of STEP and is fluent in Spanish and Portuguese.
